ASSESSOR'S ROLLS CLOSED

Tuesday was the last day of grace, and if you did not offer your property rendition to Assessor Yeats before his office hours expired that evening you are in a fair way to have to pay the penalty of one dollar for failing to comply with the law. Assessor Yeats and his deputy will now see those who have failed to render and while getting their renditions will tack on the extra dollar for their trouble. The assessor's office was kept open until late Tuesday night for the accommodation of those who had forgotten.

Registration days May 1 to 10.

FARM AGENTS' ACTIVITIES

Interesting Reports of Mr. and Mrs. Fash as to Their Work in this Section of the State During the Past Week.

Following are excerpts from the reports of County Farm Agent Fash and Mrs. Fash, which go to show something about the work being accomplished by these earnest workers:

Mr. Fash's Report

Monday I vaccinated hogs for the State National Bank of Durant—14 head of them, and 13 for Lewis Paulin, and 16 for Nick Arend.

Tuesday I went to Banty, staid all night with I. C. Teague, and Wednesday I visited the farmers and members of the Boys' Clubs and their parents, and found some of the boys very enthusiastic over the prospect this spring. All were doing good work.

Thursday morning I visited two farmers and their boys, and drove to Caddo. Arrived at Caddo about noon, put my team in the barn, and took the train to Durant. Took dinner, answered a letter from a farmer who had 30 head of hogs to vaccinate. Got by vaccinating outfit and took the train back to Caddo; got my team and drove 3½ miles and vaccinated 17 head of hogs for Z. V. Gordon and one of his neighbors; got through just at dark; staid all night at Gordon's, and the next day drove northeast of Caddo and visited one demonstrator and three other farmers; then drove back to Gordon's and took dinner; drove out 6 miles southwest of Caddo in a community where I have 5 corn club boys, and here I ran into a hornet's nest. I had directed the boys where to get good seed corn, and they got the corn all right. I had a good time with these boys. The man had sold them seed corn that was not fit for hog feed and had charged them 75 cents per bushel for the corn. The boys were badly discouraged, as their corn had never seen daylight after planting it. They still had some of the seed, so I could see what they had got. I left them in a good humor and promised that I would have some good seed corn for them by Monday morning's mail. Saturday I went to Mr. Lievesey's and selected some good silvermine corn and fixed it up and mailed it to the boys.

Everything looks good for the coming season. Corn generally

is up to a good stand, and oats are looking fine. Farmers are beginning to plant cotton.

Mrs. Fash's Report

Spent the week visiting club members and found the majority of them doing good work. A few are quitting the county and will be removed from the list; also a few who want to attend summer school and cannot do the work. One farmer told his daughter that he hadn't much faith in her work, but if she wanted to clean up a couple of cockle burr patches and put it in tomatoes she could. It will take lots of hard work but I believe the girl is equal to the task. One mother who has been sick all the week says that her 12-year-old daughter, who belongs to the bread club, took charge of the kitchen and baked pancakes, muffins and cornbread, and did it much better than she had been able to do.

I have straightened out several imagined difficulties, among them one for a girl whose mother had gotten the idea that her daughter must plant one acre of tomatoes and the proceeds go to the Caddo Carnival Company, and in spite of it all the girls refused to give up the work, and the outlook for Bryan County is extremely good.

S. E. N. DEBATE WIN FROM KENDALL COLLEGE

Messrs. Grady Lewis and R. D. Beane, representing the Southeastern State Normal School, won a victory over Henry Kendall College in a debate at Tulsa last Friday night. The completeness of the victory is shown by the fact that the Southeastern orators won by a unanimous decision over the collegians, and that, too, in the presence of a big lot of enthusiastic boosters for Kendall.

The question for debate was the imposition of a literacy test for immigrants, the Normal favoring such test while Kendall opposed it. Kendall College is the leading Presbyterian college for young men in Oklahoma, offering a full university course and granting the usual college degrees.

As the college prepares for the ministry, it makes a specialty of the training of its students for public speaking, consequently the Durant school won a victory of no mean order in defeating her representatives in their own institution and before their friends and supporters.

There is still another feature con-

cerning this victory that should be mentioned, viz.: that one of the Normal debaters, Mr. Lewis, had less than ten days in which to get in shape for the contest, while the Kendalites had chosen their team two months ago and had made strenuous preparations to defeat Durant.

Messrs. Lewis and Beane are talented speakers and excellent students. They are both Seniors in the Normal school and will be graduated at the close of the current school year. The many friends of the young men will rejoice with them because they have thus decisively demonstrated the good work which the Normal school is doing.
